Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

The amendment of paper no. 10, filed October 15, 2001, is acknowledged.

Claims 1-7 are canceled. Therefore, the rejections under 35 U.S.C. 112, second paragraph, and 35 U.S.C. 102 (b) as being anticipated by Leslie et al. (GB 2307857 A) are moot.

Claims 8-15 are newly added and presented for examination.

New ground of rejection is applied for reason as follows:

Claim rejection

❖ The following is a quotation of the appropriate paragraphs of **35**

U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 11-15 are rejected under **35 U.S.C. 102(b)** as being anticipated by Leslie et al. (GB 2307857 A).

Leslie et al. teach an effervescent composition comprising CO₂ donor, acidic component, active agent, and sweetener (page 2, paragraphs

Art Unit: 1617

6-8). Leslie et al. also teach a preparation including granulation at 60°C (page 4, last paragraph). Extrusion is disclosed (page 3, the penultimate sentence or lines 30-33).

As to the claimed sequence of melting and addition of components in claim 2, Applicants disclose that the method of Leslie et al. (example 3 of GB '857) is equivalent to that claimed (page 5, lines 5-11 in the Applicants' disclosure).

- Applicants argue the intended use of stability; however, the intended use is irrelevant to process of making claims.
- ❖ The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in-

(1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effect under this subsection of a national application published under section 122(b) only if the international application designating the United States was published under Article 21(2)(a) of such treaty in the English language; or

(2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that a patent shall not be deemed filed in the United States for

Art Unit: 1617

the purposes of this subsection based on the filing of an international application filed under the treaty defined in section 351(a).

Claims 8-10 are rejected under **35 U.S.C. 102(e)** as being anticipated by Khankari et al. (US Patent No. 6,024,981).

Maintain
Khankari et al. teach a composition comprising an active, an effervescent, and a sugar (column 15, Example 1). Sugar in excess of effervescent is disclosed (column 15, Example 1). A CO₂ donor and acids are specified for the effervescent (column 14, lines 44-65).

Claims 8-15 are rejected.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the

Art Unit: 1617

mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
